The last big push in the campaigns of Acting Gov. Charley Johns vs. Leroy Collins for governor, and Rep. B. Elliott vs. Emmett Underwood for state representative was under way this week as runoff time neared.

The candidates and their spokesmen, with runoff next Tuesday, May 25, have taken TV, motorcades, and house-to-house visiting as the day of decision approaches.

In the representative race, Elliott has set up headquarters in the George Washington Hotel, West Palm Beach, and his supporters on the coast are working out of there. Two of the Elliott television shows in private offices in the county. It will end in a motorcade with a fish fry being organized by Jabo Simmons.

Gov. Johns made his last pre-election visit to the Glades Monday, when he was present for a cod-fish at Belle Glade American Legion Hall.

# 2 NEW POLIO CASES REPORTED

BELLE GLADE — Two new cases of polio reported this week are George Weitzman, five-year old son of Mr. and Mrs. Dan Baker of Belle Glade, and Terry Cook, 3 1/2 year old son of Mr. and Mrs. Otis B. Cook, Jr. of South Bay. Both children are the first sign of a severe headache, stiff neck and high temperature, to see a physician. Since there are polio cases in the area, it is advised by the health department that children get proper rest and not to get overtired, and if there are any symptoms of coming down with a cold, they should not be sent to school or to the park. The faculty of the schools have been instructed that if any child comes to school with a temperature he should be sent home.

# SEGREGATION IS STILL FUTURE

With Oct. 12 the earliest possible date for the U. S. Supreme Court to take further action on this week's ruling that segregation is unconstitutional, no direct effects have yet been felt in the Glades.

The Palm Beach County Board of Public Instruction had no comment to make at its regular meeting this week, following announcement of the Supreme Court decision.

Pahokee Principal Clive Canine, asked his views on the court's ruling, said: "In the first place, the Florida law pertaining to segregation will have to be changed before anything in accordance with the Supreme Court decision can happen in this state; secondly, it will take time to work out non-segregation to the satisfaction of all."

# NEW HILLIER HOTEL TO OPEN MID-JUNE

PAHOKEE — The New Grassy Waters Motel, its name taken from the translation of the Indian "Pahokee," is scheduled to open in mid-June, Don Hillier & Sons, builders, said this week.

The 24-unit, air-conditioned motel, which was begun last fall, had not quite reached completion because of rainy weather. However, the furniture is in, the sign has arrived and progress is continuing, with an open house to be scheduled later.

# Budget In Balance

PAHOKEE — The city budget for the first six months of this fiscal year is in better shape than a year ago, and in good balance except for a few small items transferred with Council's approval last week, City Clerk Dorothy Graham reported yesterday.

For the first time in local history, the water works sinking fund is up to the required \$20,000 banked minimum, Mrs. Graham said.

The report for Oct. 1, 1953-March 31, 1954 shows that City of Pahokee's expenditures to be \$48,836.19, and the income for that period totalling \$75,083.83. The water works, in much better condition than in previous years, spent \$20,650.83 and had a six-month income of \$25,849.28 Mrs. Graham reported.

All bonds and interest thereon are paid up to date, according to the city clerk.

Increased income from the cigarette tax and utility taxes helped the black on the ledger, she said. Miscellaneous collections of \$4,002.39 in income from such items as dog licenses (total dogs licensed reached an all-time high in early February) hauling fees, and fire extinguisher service.

# FUNDS SCARCE AT BG C. OF C.

BELLE GLADE — A "desperately low ebb" in the Belle Glade Chamber of Commerce treasury brought a renewed plea Wednesday that all memberships not yet renewed or others who want to join the C of C do so at once.

More than \$3,000 expended for the new building, without a cent of income elsewhere, a special campaign, increased operating costs, and other expenditures have brought the Chamber to a dangerous low, Wedgworth said.

Unless the as yet unpaid membership dues are received immediately turn in their \$25 annual membership, the alternative is to stop the progress program of the C of C or add extra expense for the city to maintain a C of C office, he emphasized.

Benevolence said: "The Chamber is a credit to a city many times the size of Belle Glade; our secretary is well qualified, and our members are more than the modest salary she now draws; operating expenses have risen considerably. The Chamber knows," Wedgworth said, summing up the major reasons for immediate need of membership payments.

## It's A Date - Tuesday

If you don't drive, walk, and if you can't walk, then creep, crawl, or get carried.

Try a bicycle.  
Try roller-skates.  
BUT BE SURE YOU GET TO THE POLLS NEXT TUESDAY!

In nearly every contest for public office as hotly contested as the present governor and representative race, some of the people who have the most violent opinions are the ones who confess, the day after election "I just didn't get time to vote."

In the Glades, on Tuesday, we hope every citizen will get out and vote.

Get-out excuse "I forgot," or a similar alibi, won't be valid, with That-Old-the-Vote being emphasized all over the Glades, in print, at the movies, and on the radio.

If you're an American citizen, act like one.

On Tuesday, go and exercise a great privilege of all Americans—the right to vote.

STEP UP: Sen. George Smathers is expected to be named to the Senate Finance Committee to replace the late Clyde R. Hoey, of North Carolina, who passed away last week. If this appointment is made, Senator Smathers will give up his seat on the Interior and Insular Affairs Committee. But, he will retain his place on the Interstate Commerce, Foreign Commerce and Small Business Committees. He already has been suggested for the post by Senator George of Georgia. Finance is one of the four most important committees in the Senate. Florida's junior Senator would like to see the post. Besides giving him more prestige, it would put him in line to advance more rapidly in seniority. Reason is that Senator George and Byrd are no longer young men. Senator Johnson will not seek reelection. Only three other Democratic Senators would be ahead of him—Kerr, of Oklahoma, Frear, of Delaware, and Long of Louisiana. (Ed. Note: Smathers received assignment to the committee Tuesday of this week.)

BIG ROAD PLAN: Coast Chairman Cecil M. Webb was back in town this week to push his nation-wide road building plan. He attended a meeting of the Florida Congressional delegation, sitting with representatives of the National Bureau of Roads. Under Webb's plan, the federal government would take the lead in financing a huge highway construction program. Among other money to be granted, the government would turn over to the states the present two-cent federal gasoline tax. These funds would be matched by the states on a 50-50 basis. One of it to be spent for roads. The plan would continue from year to year until our present road system would be increased to criss-cross the country with a network of high speed super military type highways.

SPONGE BUSINESS: A Washington stop-over last week was Mike Samarkos of Tarpon Springs. Mike has been in the sponge business since 1921, and is on a sponge selling trip throughout the east and middle-west. A former city councilman,

## WASHINGTON NEWSLETTER

By Sen. George Smathers

WASHINGTON—Last week, Sen. Clyde Hoey, of North Carolina, invited me to appear with him in a radio interview to be broadcast over a network of some 40-old Carolina stations. The senator had been advised by his physician to take more time off for rest, but he appeared in his usual good health and spirits as he talked about various issues. After the broadcast, I headed for the Senate Floor and Senator Hoey told me he was going back to the office to catch up on his mail.

An hour or so later, I heard with grief and shock the news that he had died. He had gone back to his desk as his administrative assistant found him sitting there, head bowed and eyes closed, having passed quietly. Senator Hoey was a great American, with an ever clear understanding of America and an abiding love for and faith in our form of government and our way of life. He had a great heart as well as enormous ability, and had been an inspiration to those his junior in the Senate. Our common North Carolina heritage had brought us together here, and it was one of my great advantages in my early Senate training.

For these and other reasons, it is especially gratifying that some of my Democratic colleagues have urged me to move into the vacancy on the Committee on Finance and Taxation which Senator Hoey's death made vacant. Sen. Walter George, of Georgia, the ranking Democrat on this committee, previously had invited me to seek this post. If assigned to Finance, I would be in a better position to serve the people of Florida and this nation and would welcome this challenge.

He stopped on his way to Philadelphia to visit with his long time friend, Courtney Campbell. Mike says the sponge industry, which has been going downhill for the past few years, has once more begun to pick up, with the beds improving and with eight diving boats and 60 hook boats now operating.

FEED THE NEEDY: Congressman Billy Matthews wants to give our surplus butter to the poor and needy. He has introduced a resolution in the House calling for a study of this plan. He wants our old folks to get the stored up butter, corn, flour, etc., instead of letting it pile up in warehouses indefinitely.

## BY SCHATZI

Now I know what people mean when they say somebody deserves a "good hiding" from the law. I've thought that meant a person should be tucked as far out of sight as possible—say at the bottom of a deep well, or stop a polar icecap. That is incorrect.

A good hiding is what can happen to a dog when distinguished visitors are about to arrive.

It all started last week when No. 2 boss said to No. 1 boss "I have fleas."

This brought a derisive laugh from No. 1 boss, who said nobody could get fleas in a house that has tiled floors. There was a sly statement to begin with, for I personally can deposit several fleas and a tick on the furniture with one flip of my right ear.

At any rate, No. 1 boss got thinking how the parents from Virginia might react if they found THEY had fleas, so the fur—or the fleas—started to fly.

First a man came and performed a deflea job on the house, on the porch, and on the patio.

He pronounced the well-nigh fatal wounds—that I and my moronic sidekick, Lisa, had to be thoroughly bathed before we could be readmitted to the premises.

Well, it was the day before press day, and I figured nobody would have time for long lit me or Lisa the peripatetic pup.

Not at all!

First thing I knew, we were being sloshed with "Sunday Shower" in the shop sink. Then we were penned in the snop bathroom most of the afternoon. Finally, we were carried (mink up) home, and so later, I heard with a sigh of relief I sank into my defleated bed.

Five minutes later I was rousted out and, with Lisa, GIVEN ANOTHER BATH—this one in soap and water.

When the Virginia parents arrived, bearing the cake I and the bosses love best, baked by hand by Miss Antoinette Breuman, (and I bet Miss Hilda had a couple of good licks at it, too!) I could hardly eat it.

Presumably my clean, shriveled hide will get back to normal in a short time.

I hope it's before all that cake is gone.

## ROBSEVATIONS

By BENJAMIN S. ROBERTS

Florida's history can be traced in the names of her counties.

From 1763 until 1819 Florida was a pawn in international affairs -- for instance, Spain ransomed Havana from the British for Florida in 1763 and twenty years later took it back in exchange for recognition of Spanish claims on the Mexican border.

Withal the English influence rather than the Spanish predominates in county names. As an example, St. Augustine, the first settlement not only in Florida but in the United States is now in St. John's county. Spanish named counties, Hernando and De Soto derive from a later period.

Recognition of the patriots of the revolutionary period was given in naming Jefferson, Madison and Monroe counties. Washington was similarly honored.

A slightly later period in American history brought T. Andrew Jackson's name to both a city and a county. General Lafayette's services to the Revolution were rewarded upon his return in Jackson's time to receive a Florida land grant and citizenship for himself and his heirs forever. Although the tract given him at Tallahassee is no longer owned by his family, Lafayette's name is remembered in a nearby county.

Florida as a slave and Iowa as a free state were admitted to the Union in 1845. This period is remembered in two county names: Calhoun and Taylor.

Florida's expansion in the latter part of the last century is marked in counties named for early developers and the governor's administrations in some cases in which advances were made. Although Alachua achieved only a city-name, Henry Flagler had a county to remember him by. Governor DuVal gave Duval county its name long after he had served his state as first territorial governor from 1822 to 1834. Strangely enough the only man who has ever served two terms as Governor, William D. Bloxham, has no town or county named for him. Southern expansion of Florida brought new counties into existence and governors were generously rewarded by having their names given to the counties of Broward, Hardee and Martin.

## FIRST CHURCH OF CHRIST, SCIENTIST, Belle Glade CHRISTIAN SCIENCE GROUP, Canal Point

That spiritualization of thought and action is necessary for real progress will be brought out at Christian Science services at the First Church of Christ, Scientist, entitled "Soul and Body."

The following passage will be among those read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Mortals must gravitate Godward, their affections and aims grow spiritual,—they must near the broader interpretations of being, and gain some proper sense of the infinite,—in order that sin and mortality may be put off" (265:5).

From the Bible will be read the following counsel given by the Apostle Paul to the Corinthians: "Now we have received, not the spirit of this world, but the spirit which is God; that we might know the things that are freely given to us of God" (1 Corinthians 2:12).

The Golden Text is from II Corinthians: "What agreement hath the Temple of God with idols? for ye are the temple of the living God" (6:16).

Great Gains are Ahead  
For Florida and You—  
Don't Let Machine Politics  
Block the Road

VOTE  
MAY 25TH

Citizens of Florida stand on the threshold of great opportunity in this rapidly growing State. Whether we shall go forward to enjoy the gains in store depends largely on the honesty, efficiency and sound policies of the leader we vote into the Governor's chair.

**FLORIDA MUST GO FORWARD**

We can not allow political gravy-train riders to continue plundering and sapping our economy if we are to stay abreast of needs and keep moving forward.

We can not be deloured by the fear spreading of desperate politicians who, seeing their machine swamped by more than 400,000 Odham-Collins votes in the first primary, are fabricating rumors, deceitful inferences and even bald lies to save their gravy-train.

LET'S GET THINGS DONE

We must consider our pressing needs for more schools, good highways, and better State institutions to serve Florida's fast-growing population. Will these things be built by using millions of dollars to pay-off and enrich political pals? Or will they be more sure of early completion with the taxpayer's money invested honestly and wisely to the maximum benefit of the whole State?

YOU HAVE THE ANSWER

The answers to those questions are obvious, but do you know that you and other thinking, independent citizens like you hold the answers in their votes? But no matter what you think; if you don't vote, your thoughts don't count. Make your thinking count at the polls and urge your friends to go and vote to carry Florida Forward with Collins.

## LET'S KEEP THIS Man of Action OUR GOVERNOR

### No Matter What They Tell You A state tax commission WILL threaten your Homestead Exemption!!

CHARLEY JOHNS is opposed to a State Tax Commission. His opponent FAVORS a State Tax Commission.

No matter how CHARLEY JOHNS' opponent and his supporters try to explain it away, a State Tax Commission WILL ENDANGER your Homestead Exemption. Just ask your local City or County Tax Assessor and see what he says.

A State Tax Commission will center more power in Tallahassee...take away authority from local government. Such a commission could immediately or in the future raise your homestead assessment to the point where your Homestead Exemption benefits would be wiped out.

That's ONE GREAT BIG REASON for supporting and voting for CHARLEY JOHNS for GOVERNOR.

## Home Folks Big Vote Tells Important Story

What the home folks think about a candidate tells a lot. CHARLEY JOHNS received 91.73% of all votes cast in his home Senatorial District. His opponent received less than 50% of the votes cast in his Senatorial District.

### Still Another Reason

ROADS - CHARLEY JOHNS' Action Road Board has inaugurated the greatest road-and-bridge building program in Florida's history. More than \$100,000,000 will be spent on Florida's road-building during 1954. The money to pay for this great program is available. The work WILL BE DONE. You can see a lot of it under way right now.

There are many other reasons to support CHARLEY JOHNS. He's a Man of Action, well qualified for the office of Governor. Support and vote for CHARLEY JOHNS for GOVERNOR.

## The 'Dictator' Speaks!

There is one thing sure at Tallahassee these days, if Acting Gov. Charley Johns, the "political accident," from Starke, doesn't like someone in appointive office, or desires to gain control of that office for his own cronies, he just up and digs up "charges" and fires the appointee, or appointees.

He started off in his "accidental" role as acting governor by ousting a large number of McCarthy appointees, and now he has wound up his performance by firing the entire State Road Board. And he managed to dig up "charges" too... "Malfeasance, and/or misfeasance, and/or incompetency, and/or neglect of duty in those 'charges' too." There were specific charges under these headings, too, but they were just as fanciful!

Now we will have a complete new State Road Board loaded with pals and cronies of the Man from Starke, the North Florida "dictator" and one-time railroad conductor turned insurance man.

Mr. Johns, who still is a State senator from his home district, and who never has been elected to office by more than 6,000 or 7,000 voters in his life, is now the acting chief executive of the State of Florida and having one heck of a good time for himself firing free people and pointing of the late Gov. Dan McCarthy whom the people of the entire STATE elected to that high office on the basis of the principles he enunciated during his campaign, and his long life in Florida as an able business man, rancher, citrus grower.

But his appointees are not good enough for Charley Johns. They must be ousted when they rightfully refuse to resign on his personal demand, and be replaced with men who are "loyal" only to Charley Johns.

We do not know how the State Supreme Court will rule on Charley Johns' eligibility to run for the two-year unexpired term of governor next year, but we do know that there are a lot of Floridians who do not like this high-handedness, who will vote against him if and when he DOES run.

Frankly, we do not see in the Man from Starke the greatness that should be visible in any man who sits in the Governor's Office and Mansion at Tallahassee. We would greatly enjoy seeing Charley Johns returned to the quiescence of Starke, forthwith, come next November!

**WHY** did the Post Times suddenly change its mind about Johns. Was it because one of the newspaper's officials was named to a State Road Board job in the Johns political machine.

**WHAT** kind of deals were made to gain this last-minute Johns endorsement by the Perry Papers.

The BEST ANSWER to these questions and Johns' promises and deals in Palm Beach County is to...

## OTIS FARRINGTON FOR CIRCUIT JUDGE

Since this Court is located in Broward County, and primarily serves the people of Broward County where both candidates reside and are best known, it is significant that Farrington is so strongly favored by Broward voters and attorneys.

In addition to his unquestioned fairness and integrity, Farrington has been a practicing attorney for 14 years and the Broward County Solicitor for the past five years and has acquired far more courtroom, trial and general legal experience than his opponent. Received law degree, with honors, in 1940 from University of Florida. Married and with three fine children, Farrington is a member of the Presbyterian Church, American Legion, Lions, Jaycees, Elks, Florida and Broward County Bar Association.

## Pahokee Voters Urged To Polls

**PAHOKEE** — The Chamber of Commerce, with the help of the Business & Professional Women's Club, is planning a Get-Out the Vote drive to insure all qualified voters getting to the polls Tuesday, C-C President Leonard Dobrow announced yesterday.

Letters have already gone out to all civic organizations asking that their members be sure to vote on Tuesday, Dobrow said. Mrs. Johanne Davis, president of the BPW, said Mrs. Jeannette Woodling and Mrs. Jeannette Johnson would be co-chairmen for BPW members to staff the polls and check voting lists as well as telephone those who had not voted by noon.

The Chamber is sponsoring a "Vote" trailer at the Prince Theatre, and has asked the BPW to hang a tag on each voter as he leaves the polls. The tags will read "I Voted—Have You?"

## NEW BUILDING IS PROGRESSING

**PAHOKEE** — New building was continuing at a good pace in Pahokee, with a new restaurant building built by Mr. and Mrs. J. T. Chance to be ready for occupancy in June.

The Chance's Tiny Diner, on E. Main St., a frame building, is being succeeded by a 25 x 25 concrete block building, adding a new barbecue pit is also to be built. Mr. and Mrs. Chance plan to move their old building back and away from the new Diner, and renovate it for residential or business occupancy.

In the trailer park next to the new building, Mr. and Mrs. Chance hope to add space this summer for six more trailers. The present capacity is 12. A concrete block restroom is to be added for the trailer park, which already is equipped with individual septic tanks and a concrete block laundry building.

**BELLE GLADE** Mrs. Winnie Roberts, of 512 SE 1st St., is being treated at a West Palm Beach hospital for a broken hip and multiple bruises, resulting when she was thrown from her car in a collision Wednesday.

Mrs. Roberts, who is employed by Southeastern Bottled Gas Co., was driving east on Ave. E when a car driven by Louis Harry Holman, of Miami Springs, allegedly caused a traffic light and collided with her car. Holman was arrested for reckless driving and causing an accident by running a red light, police reported. Patrolman Carl Williams investigated the accident. Holman is to appear in municipal court Monday.

### SEGREGATION

(Continued From Page 1) concerned, and it will take a lot of deep thought and planning. As to how it will be worked out, I don't myself know."

Principal Frank Hobson, Belle Glade, said he had no comment to make at this time because he had not made sufficient study of the problem as yet.

Negro Opinion  
Two Glades Negro leaders expressed their views to the OBSERVER as follows:  
W. C. Taylor, past president of the Belle Glade Inter-Racial Council and member of the steering committee of the Negro residential group, said: "Since the landing of the Pilgrims in 1620 Americans have faced many challenging circumstances. Our predecessors met their problems and conquered them by first seeking Divine guidance, then with courage and faith in God, their leaders and themselves, America has moved forward to its present status in world history. The decision of the Supreme Court of the United States gave America but another challenge. I believe the pattern set by our forefathers, adding to it patience, tolerance and the message of the Master Teacher recorded in Luke 3:1. 'As ye would that men should do to you do ye to them likewise,' will meet and solve this problem in the best interest of all the people."

Chas. M. McCurdy, principal of Lake Shore elementary

school, said: "The Supreme Court's decision to end segregation in the public schools is a great step in keeping with the highest ideals of Christianity and the purposes of our democratic government as expressed in the preamble to the Constitution of the United States. As a teacher and principal I am fully aware of the multitude of problems that must be solved in carrying out the decision. The schools of this nation, however, have never backed away from the problems they have had to face. It is therefore my belief that we shall with the same open-mindedness and clearness of purpose solve the line problems associated with the carrying out of this decision by the highest court in our land."
